Governor Cooper,

Please DENY the permit(s) to build the ACP. There is a much better way to bring energy to North Carolina: solar, wind, and battery power. These industries will create far more jobs than will a fracked gas pipeline, which will damage our water supply. See NC Clean Path 2025.

I am a family doctor in Durham. My wife and I have lived in Durham since 1990, and went to medical school at UNC from 1980-84. We raised both our children in Durham. On behalf of all of our children, please do the right thing!

Respectfully, Jonathan L. Sheline, MD; 111 Pinecrest Rd, Durham 27705
